Super Premium Dog Food Provides Optimal Nutrition in a Kibbled Dog Food

Man's best friend deserves only the best in a quality food. Dynamite uses the purest and highest-quality ingredients in our Super Premium Dog Food to meet the essential dietary needs for your dog.

Dynamite
SPECIALTY PRODUCTS

Super Premium Dog Food

CHICKEN & TURKEY

all natural, corn-free, wheat-free kibble

This superior kibble is made with select ingredients to ensure efficiency of digestion and nutrient intake while being free of common allergens, corn and wheat.

- ✓ Hand-trimmed, USDA chicken and turkey
- ✓ Fresh, low-ash lamb
- ✓ Chicken cartilage, rich in natural glucosamine
- ✓ Naturally preserved fish meal and salmon oil for essential Omega-3 fatty acids
- ✓ All-natural prebiotics and probiotics to aid digestion

Super Premium Dog Food is made with a state-of-the art low-temperature, high-moisture process to assure all starch is cooked and to help preserve the natural proteins, minerals and vitamins in the ingredients. It is free of preservatives, ethoxyquin, mycotoxins and harmful chemicals of any kind.

Every batch of Super Premium Dog Food undergoes stringent quality control checks and random and periodic inspections by outside agencies, to ensure quality and safety. These programs cover feed ingredients, warehousing, pest control, maintenance, sanitation, sampling and lab analysis, GMPs, SOPs, HACCP and employee training, to name a few.

All products are tested by an outside agency for the presence of pathogenic bacteria before they are released for distribution.

This is an ideal diet for all breeds of dogs in every life stage!

AVAILABLE SIZES

40 lb bag

TRANSITIONING TO NEW FOOD?

Make It Easy With Dyna Pro®!

Any change, even a subtle one, to a dog's diet can cause upset to their digestive system. Other factors such as stress, chemical wormers, vaccinations and antibiotics may cause a dog's gut to become an unfriendly environment. Proper digestive health depends on a thriving population of beneficial gut microbes. Dyna Pro contains prebiotics that support the ideal environment for good microbes thus aiding in proper digestion and utilization of food and supplements.

Your Dynamite Distributor
